

Freedom of Information Request 19 030

Our Reference: FOI 19 030 / LB / HG
Name:
Date: 22 February 2019
Address:

Dear

Further to your Freedom of Information Request, please find the Trust's response below:

1. *How many data breaches have there been in your organisation since 2014?*

Humber Teaching NHS Foundation Trust summarise the IG Incidents reported to the ICO in the Trust Annual Reports. These can be viewed on the Trust website at:

<https://www.humber.nhs.uk/about-our-trust/annual-report-and-accounts.htm>

The following number of incidents were recorded on the Trust incident reporting systems during the indicated financial years. Kindly note, each incident would be reviewed in line with guidance on incident reporting to establish if the incident needed to be scored as a true IG incident.

	No of Incidents Marked as relating to IG
2014 15	280
2015 16	276
2016 17	321
2017 18	262
2018 19 *	231

* Figure until 31/01/2019

2. *How many of those data breaches related to email?*

I am sorry to inform you that the Humber Teaching NHS Foundation Trust does not hold the information in the form you requested. We estimate that the cost of complying with your request would exceed the appropriate limit. To establish if the incident related to email would require each incident to be reviewed.

'breach of data' is the one used by the ICO:

A personal data breach means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data. This includes breaches that are the result of both accidental and deliberate causes. It also means that a breach is more than just about losing personal data.

This includes all internally reported data breaches, and not just those that have to be reported to the ICO.

Humber Teaching
NHS Foundation Trust

Kind Regards

Freedom of Information Team
