## Freedom of Information Request 19 238

**Our Reference:** FOI 19 238 / AA / HG  
**Name:**  
**Date:**  
**Address:**

Dear

Further to your Freedom of Information Request, please find the Trust's response below:

I am writing to request the sharing of the most current information available regarding the Inflammatory Bowel Disease MDTs, and prescription of biologic drugs to treat IBD in the UK. Specifically:

- How many members are in the MDTs within the trust, and professional makeup (ie, how many consultant gastroenterologists, clinical nurse specialists, colorectal surgeons, dietitians and other specialisations)
- Available facilities for patients with IBD in the trust (endoscopy, biologics infusion, radiography)
- The Trust's treatment pathway protocols for patients with moderate-to-severe ulcerative colitis (other patient treatment pathway protocols for ulcerative colitis/IBD may also be of interest)
- Following treatment with a biologic to induce remission, how often are patients checked up on?
- Please could you provide the following number of patients treated with the biologics below in the last 12 months (latest 12 months if possible) for Ulcerative Colitis below?

Adalimumab  
Infliximab  
Golimumab  
Vedolizumab  
Ustekinumab  
Tofacitinib

Humber Teaching NHS Foundation Trust is a multi-speciality provider of mental health, primary care and community services. IBD would not be diagnosed by this Trust therefore you may wish to request this information from Hull University Teaching Hospitals NHS Trust who are the acute Trust in this area.

Kind regards,

Freedom of Information Team
